The Faction of the Party He Has Dominated for Ten Years, Under Senator Allee's Lead, Adopts a Plan for Joint Primaries with the Regular Organization.

WILMINGTON, Del., March 17 .-- United States Senator Allee was in undisputed control of the meeting of the Union Republican State committee at Dover to-day, and J. Edward Addicks, who was present, did not make a protest against his programme. It was noticeable, however, that the two men did not even speak to each other during the continuance of the meeting.

The committee adopted a proposition to be submitted to the Regular Republican ate committee which was, in effect, the holding of a State convention at which the factions shall join in electing delegates secording to the apportionment which the Regular Republicans have adhered to. This apportionment has long been a bone of contention between the two factions, as the Union Republicans have looked upon it as very unfavorable to them, and approval to-day is a distinct step in the direction of a union of the two factions. The action of the committee was unanimous.

This action practically eliminates Addicks as a factor in Delaware politics and eans that hereafter there will be a united

means that hereafter there will be a united Republican party in the State.

Addicks has practically been out of the party management since last summer, when the leaders of the Unionists, the faction of the party which he had dominated for ten years or more, threw him overboard because of his persistence in his "Addicks or nobody" policy. They took the ground that as he had been a perennial candidate for the United States Senate for something like seventeen years. Senate for something like seventeen years, with even less chance of success than when he started, to continue the fight would not he started, to continue the fight would not only be useless, but would also destroy the party in the State. The Union State committee thereupon made overtures to the Regular organization looking to common primaries, and the negotiations have reached the stage where to-day the committee unanimously voted to make the offer. The Regulars can hardly refuse the proposition, for it includes the acceptance of their own basis of representation, which was the principal cause of the spiit ten years, ago. This provides for a State convention composed of seventy-eight delegates from Newcastle county, which includes the city of Wilmington; 40 from Kent county and 42 from Sussex, a total of 160 delegates. The present Union representation is 85 from Newcastle and 50 each from Kent and Sussex.

The point of difference is that the regular strength is concentrated in the city of Wilmington and the unionists control the two lower counties, so that the latter, with a majority of 15 under the union basis, dom-inated the State, whereas under the other nated the state, whereas under the other plan there was a majority of four only, which makes it necessary to secure only three delegates from the lower counties to secure control for the city.

The committee to-day also agreed to accept the primary rules of the regular organization, stipulating only that each faction stably have a clerk and judge in each vetting.

ization, stipulating only that each faction shall have a clerk and judge in each voting district at the primary election to be held next month. The 160 delegates to be chosen under this plan are to elect a new joint State committee to the place of the two committees now acting, and after ten years of antagonism the two wings of the party will again flap together. This will insure the nomination of but one Republican candidate for each of the minor State offices by the August convention and for Congressdate for each of the minor State offices by the August convention and for Congressman and members of the Legislature by the September convention and, if a majority is secured in the next Assembly, the election of two United States Senators by the Republicans. There seems an excellent prospect, therefore, that Delaware, which for the past fifteen years has been partly and at times wholly without representation in the Senate through Addicks's perpetual candidacy, will again have her full quota in the upper house of Congress.

Addicks has persistently fought the proposition for joint primaries, and to-day's unanimous vote of the Union Republican State committee against him shows that his hold upon the politics of the State is a thing of the past.

in that committee voting against me.

LARGEST STEAMSHIP EVER.

B-Decked Kalserin Auguste Victoria to Sail on May 10 for New York.

Word was received at the offices of the Hamburg-American Line in this city yesterday of the inspection made recently by a party of engineers and others who by a party of engineers and others who went from Hamburg to Stettin to look over the Kaiserin Auguste Victoria, the newest and greatest of the line's steamships. The ship is all but completed. She is to sail for this port on May 10.

She is the largest steamship ever built. She is of 25,500 tons gross register or 43,000 tons displacement, and has eight decks above the water line. She is built on the same lines as the Amerika, but has one more deck and other features that are not to be found.

lines as the Amerika, but has one more deck and other features that are not to be found aboard the present greatest ocean traveller. A large restaurant where meals can be had a la carte, elevators, fifty private cabins de luxe, a gymnasium, electric baths and massage, special telephones, and finally a palm garden, in which there are playing

a palm garden, in which there are playing fountains.

This new sea monster is over 700 feet long, with 78 feet beam. She will be able to carry 550 passengers in the first cabin, 350 in the second, 300 in the third and 2,300 in the steerage. With her crew of 650 officers and men she will be able to take care of 4,150 persons. The ship's cargo holds will have a capacity for 16,000 tons of freight. Capt. E. Kopff, the oldest skipper in the service of the Hamburg-American Line, will command her.

FAST BASKETBALL AT SMITH. Sophomores Beat Freshmen in Annual Contest by 27 to 12.

NORTHAMPTON, Mass., March 17 .- The Smith College sophomores won the annual basketball game from the freshmen this afternoon by the score of 27 to 12 in one of the fastest and most exciting contests in the history of the college. For over an hour before the commencement of the game crowds of college girls and graduates waited in the snow for the gymnasium doors

waited in the snow for the gymnasium doors to open.

Heretofore tickets have been issued to the line in order, but to-day they were given out by dra wing. The interior of the gymnasium was profusely decorated with the college and class colors, and the singing of a number of new class songs was a feature.

Pandemonium reigned while the mascots were being, paraded. The sophomores had a small boy dressed in purple leading a dog covered with the class colors, while the freshmen had a touring car with body and tonneau of yellow and green wheels. The auto driver was a small boy with yellow coat, gauntlets and cap.

The freshmen scored first on a foul, but the sophomores quickly took the lead and closed the first half with a 15 to 7 margin. The team maintained about the same ratio

The team maintained about the same ratio of gain in the second half. The players

were:
Sophomore—Lucile Parker, captain,
Portland, Ore.; Alta Smith, Portland, Ore.;
Amy L. Sautelle, Northampton; Elizabeth
Parker, Portland, Ore.; Elsie S. Riker,
Orange, N. J.; Myrtle Smith, Minneapolis;
Mabel E. Wiggins, Warsaw, N. Y.; Ruth E.
Wicks, Buffalo.

Wicks, Buffalo.

American **Nickel** Going Up!

All the new, powerful modern machinery is now installed and starts up this week.

The mines are looking splendid. The greatest experts in the world say: "American Nickel owns the only nickel mines in the United States. and the only nickel mines in the world that produce high grade ore."

Seven years' development work has exposed \$250 a a share in sight.

Old Dominion went up from \$1.50 to \$53 a share.

Calumet & Hecla went up from \$2 to \$900 a share and has paid over \$92,000,000 in dividends to date.

The same able, experienced, honest capitalists who developed Old Dominion and Calumet & Hecla are now backing and developing American in mining men who for years acted as private advisor in mining matters to an operator who has made fifteen million dollars in gold, silver, and copper

This stock is kept down to a false low price on the New York curb market by powerful bankers, who keep on quietly accumulating it.

Buy American Nickel and hold it for a great rise and big dividends.

This stock is about to have the same history as Calumet & Hecla.

American Nickel Bull.

MORAN SHIPYARDS SOLD.

apitalists Associated With the Griscoms Get Big Seattle Plant. SEATTLE, Wash., March 17 .- A statement

of the past.
"Behold my old friend David Clark,"
said J. Edward Addicks after Senator
Allee's programme had been adopted.
"David, I have not consect to pray for you.
Here you are, you fellows, well dressed and sleek on salaries from Senator Allee, sitting in that committee yoting against me."

signed by Robert Moran, president of the Moran Brothers Company, builders of the battleship Nebraska, announcing the sale of control of the company to Eastern capitalists associated with the Griscoms of Philadelphia is published here to-day. signed by Robert Moran, president of the Philadelphia is published here to-day. The consideration, while not stated, is

known to be between \$2,500,000 and \$3,500,000. The Morans will personally complete the Nebraska. Failing health and a desire for rest is given as the cause of relinquishment by the family of the great enterprise which they founded in 1882.

KERBY LIEUTENANT-COLONEL

Of the 5th Regiment, Despite the Opposition of Col. Jarvis.

After one of the hotest campaigns of electioneering in the history of the Eighth Regiment, and despite the opposition of Col. Jarvis, commanding the regiment, Major John Edward Kerby has been elected Lieutenant-Colonel over the Colonel's

Lieuteriant-Colonel over the Colonel's candidate, Capt. John Jay Cowdrey. Kerby received 16 votes and Cowdrey 11.

The Colonel openly favored the election of Capt. Cowdrey, who was fifth senior captain, over the heads of Major Kerby and Major Robert Edwards. The election was concluded late last Friday night.

WE ARE ON THE GROUND AT BULLFROG

We told you to buy pool certificates of stock of Montgomery Mountain Mining Company, six weeks ago, at 7 cents. Now selling at above .55. Did

We advised the purchase of Denver Builfrog at 16 cents, less than three months ago. These shares are now selling around \$1.50—nearly 1.000 per cent.

nandsome buy at 15 cents. It is now selling around .75, and will see a dollar shortly.

When Bullfrog Amethyst was begging in Rhyolite at 8 cents, we picked up a couple of hundred thou-sand shares at that figure for our clients. We are now bid \$1 for 100,000 of these.

> YOU NEED US IF YOU BUY OR SELL **BULLFROG STOCKS**

We are doing a "land office" business in Rhyolite, the metropolis of the Bullfrog district, buying and selling mining stocks of the first class. Our office is located at the foot of Bonanza Mountain. We can hear every blast of the day and night shifts, and from the sumber of cheeks we cash for the four-dollar-and-a-half-a-day miners, we] can tell about how many men are working on each property. We don't have to take anybody's word. When a great strike of rich ore is made, we generally hear of it before the stockholders in the various companies. When a deal is on for the control of a mine, we always know of it early. Men don't buy mines without looking at them, and our staff of hawks and scouts—veterans of many a mining camp and scouts—veterans of many a mining camp—
are trained to learn these things. They recognized
Mr. Engineer Johnson of Sam Newhouse's staff
before he was in town a minute, and our clients
heard by telegraph from us an hour or two later
that a deal was hatching for the sale to Newhouse
of Peery's Montgomery Mountain Mining Company, and they profited by the information to the
tune of thousands.

> WE GET THE REAL **FACTS ABOUT THE** MINES BY SEEING

We can guide you right in your Builfrog invest-ments. Our Mr. B. F. Taylor got his early training on Wall St. and in the great newspaper offices of two continents. He knows markets, men and stocks. Our Mr. E. W. Griffiths is a Sait Lake

Both have been on the ground at Bullfrog over a year. There isn't a foot of mining ground on Bo-nanza Mountain, I add Mountain, Monigomery Mountain, or for fifty miles either side of them that we don't know and know well. And we know ALL about ALL the mining companies operating here. Ask us by mail or telegraph a specific question, and see what kind of a reply you get. We assure you it will be satisfying. It is our proud boast that we are Builfrog encyclopedias. "The best or nothing" is our motio, and our news service is built on this plan.

> **NEWS OF STRIKES** FLASHED TO OUR **CLIENTS SPEEDILY**

We advise the immediate purchase of shares of Bonanza Mountain Gold Mining Company, at 23 centa. We predict 100% advance in 60 days—or

The property of this company consists of five claims on Bonanza Mountain and are already famed in Nevada as the positive makers of future great gold mines. They are named the Great Eastern, Great Eastern No. 1, Great Eastern No. 2, Great Eastern No. 8, and the Rush No. 2—In all about 75 acres. The property is deeded absolutely to the company. The property is surrounded by such world famous mines as the Denver, selling at \$1.50. Golden Scepter, 45: Eclipse, 76: and Gibraltar, for which \$1.50 is bid; also by the well known Peerless, just bonded for \$100,000, and the Rush group, which sold for \$150,000. The company is capitalized at 1,250,000 shares, par value \$1. 500,000 shares are treasury stock, full-paid and non-assessable. The company is now selling 50,000 shares of treasury stock for development purposes at 25 cents.

The time to buy Bonanza Mountain Mining Company shares is NOW

> **OUR FRIENDS HAVE MADE THOUSANDS** WITH OUR **INFORMATION**

Happy Hooligan shares at 20 cents are a "pick

A rich strike of shipping ore was made Thursday in the Happy Hooligan mine. Bonanza ore was encountered about 400 feet from the main workings. They have two feet of ore that will run better than \$275.00 per ton. That makes a GREAT GOLD

The company owns seven claims and a mill site. They have just purchased a water right which will give them an ample supply for milling purposes. The company has about 70 tons of shipping ore on the dump, which they are sacking for shipment. The ore is practically free milling, and the company is going to erect a cyanide mill at once.

The Happy Hooligan Mining Company's property
is located in the foothills of the Grapevine Moun-

tains, eight miles west at Rhyolite, in the Builfrog Mining District. The company is capitalized for one million shares of the par value of \$1 each. 850,000 shares in the treasury.

The property is paid for absolutely and has no in-debtedness. The original owners had done be-tween \$15,000 and \$25,000 worth of work before the property was taken over by the company. The work consists of a tunnel 164 feet, a winze, 62 feet, 70 feet of drifts, and on the vein north and south surface cuts and trenches amounting to 120 feet. Assays taken during the progress of the work show from \$18 to \$49. The property is looked upon by mining men as being a high grade milling proposition. The formation is lime and porphyry contact. The company has ordered and paid for a hoist which will be installed very shortly. They propose sinking on the contact. The ores which are practically free milling, will be treated by cyanide process, and the company proposes to erect a mill without delay.

We know this mine inside out. We call the shares a gift at 20 cents. Wire us your orders to buy and we will pick up for you some shares. We know where a bundle of this stock iles, and we offer it subject to prior sale.
